INTRODUCTION

We at A S ENGINEERS work to the highest standards of MEP installation, thus, satisfying the intent and spirit of the design. Each project is a never-ending responsibility for us, Team's commitment has contributed to the impressive accomplishments of the company so far. In a relatively short span of time, the company executed a number of projects and continues to work on a number of projects varying complexity, size and value. Our prestigious client list are testimony to our workmanship.

VISION

We aim to become one of the leading MEP design and built contractors.

MISSION

Guided by our vision, we shall provide quality services exceeding client's expectations while adhering to the highest standards of Technical and Individual excellence through continuous Improvement, training and innovation.

CLIENT SERVICE

We add value to our client's projects through innovative solutions. Consistency and knowledge in dealing with our clients has contributed to our fulfilment and corporate success.

EXCELLENCE

We are resilient and persistent in taking on challenging goals and setting higher performance benchmarks that help us to excel in every way that is meaningful to our clients employees and vendors.

QUALITY

We are driven to attend to our client's concerns responsively towards delivering our commitments.

EMPLOYEES

We pursue business opportunities that will enable us to be competitive by empowering our employees to take on initiatives and at the same time promote ownership of responsibilities and accountabilities to results and performance. Our staff has international expertise in their field of work is an added advantage.
